

REMARKS:

Applicant has carefully considered the Office Action mailed July 19, 2004.

Reconsideration of the application in view of this amendment in response thereto is respectfully requested.

The drawings were objected to because the drawings are informal and reference character 256 is missing. Please replace the three sheets of drawings showing Figs. 1-4, 5A-5D, 6A-6D and 7 originally filed herein with the five sheets of formal drawings enclosed herewith showing the same Figures. Also enclosed herewith is a copy of an originally filed sheet of drawings showing the addition of character 256 in red. Applicant urges that the corrected replacement drawings add no new matter.

Claims 1-3 were objected to because of various informalities as listed in the Office Action. Those informalities have now been corrected.

New claim 4 has been added to provide coverage not previously claimed.

The Examiner is invited to contact the undersigned at the below-listed telephone number if it is felt that the prosecution of this application may be expedited thereby.

Respectfully submitted,
LEE A. SILVERNESS

A circular diagram showing a cross-section of a structure. The circle is divided into four quadrants by a horizontal line and a vertical line. The left quadrant is labeled '180' and the right quadrant is labeled '182'. The structure consists of several vertical lines of varying heights, with the tallest ones in the center. The diagram is rendered in a high-contrast, black-and-white style.
